Re: *Preserving the Open Internet*, GN Docket No. 09-191; *Broadband Industry Practices*,
WC Docket No. 07-52

Dear Ms. Dortch:

On December 14, 2010, Kathleen Q. Abernathy, Chief Legal Officer and Executive Vice President, Regulatory and Government Affairs, discussed the above-captioned proceedings by phone with Commissioner Mignon Clyburn, Dave Grimaldi, Chief of Staff and Media Legal Advisor to Commissioner Clyburn, Angie Kronenberg, Wireline Legal Advisor to Commissioner Clyburn, and Louis Peraertz, Legal Advisor for Wireless, International and Public Safety to Commissioner Clyburn.

Ms. Abernathy emphasized that Frontier does not believe that the proposed Internet regulation is needed at this time but should the Commission decide to take action in these dockets, it is critical that the Commission ensures that any broadband regulation is applied in a technology-neutral manner. Ms. Abernathy's statements were consistent with Frontier's prior submission in this proceeding.¹ The participants also discussed the entry of wireless broadband service into the market and its effect on wireline broadband subscribership, but Frontier did not provide specific data.

Please feel free to contact me with any further questions.

Sincerely,

/s/
